

Torque Multiplier, 25:1 ratio, Anti Wind Up Ratchet, 1/2" In, 3/4" Out; Handtorque HT-72/25

HT-72/25 AWUR

Handtorque HT-72 models have all the features of the Standard Series, but have a higher torque output for a given gearbox diameter.

Product's part number: **18081**
Product's NATO number:
Product's Accuracy: **+/-4%**
Operates between: **100 - 1000 N.m**
74 - 740 lbf.ft

Technical Specification

- Tool Weight: **3 Kg**
- Multiplication Ratio: **25:1**
- Output Square: **3/4"**
- Input Square: **1/2"**
- Reaction Plate Weight: **0.66 Kg**

Features

- Guaranteed accuracy of better than +/-4%.
- Electronic torque transducers can be fitted for precise torque monitoring.
- Available in a variety of ratios and output square drive sizes.
- Compact dimensions allow excellent access and easy, safe handling.
- Anti Wind-Up Ratchet, for easier and safer operation.
- A variety of alternative reaction styles are available for maximum versatility.
- HT-72 features a light weight aluminium reaction arm.
